

Below is a list of books that parents can simply read together with their children over the course of their developmental growth stages. When possible, both parents should be present, at least until adolescence. Single parents will need to take responsibility for both, in addition to seeking out other resources. Each parent should preview each resource for their comfort level, realizing children mature at different speeds. There are many more resources, but these get the job done. Additionally parents must safeguard their homes in regard to technologies, which are always changing on us. The appendix in each of these books offer lists of additional resources.

1. (Ages 3-8) How Did God Make Me? www.zonderkidz.com. Matt and Lisa Jacobson.
2. (Ages 8-12) The Amazing Beginning of You. www.zonderkidz.com. Matt and Lisa Jacobson.
